SIE-6090/1390/1410/1325-2 Head (Double Co2 Laser Cutting & Engraving Machine)

Specification	SIE-6090-2	SIE-1390-2	SIE-1410-2	SIE-1325-2
Working Area	600mm*900mm	1300mm*900mm	1400mm*900mm	1300mm*2500mm
Laser power	80/100/130/150W	80/100/130/150W	80/100/130/150W	80/100/130/150W
Machine Dimension	1370X1010X1050mm	1740x1360x1100mm	2330x1730x1230mm	3660x2080x1440mm
Laser type	Co2 glass laser tube x 2 Qty			
Software	RDworksV8 (Software CD Provide with Machine) + WI-FI + Problem Detecting Function			
Engraving speed	1000mm/s			
Cutting speed	500mm/s			
Cutting thickness	Determined by materials			
Position	4000DPI			
Position system	Red Dot Point*2			
Interface	USB			
Resolution Accuracy	±0.1mm			
Support graphic format	DST, PLT, BMP, DXF			
Gross power	1000W			
Driving	YAKO driver			
Cooling mode	Circulation water cooling CW5200 Chiller + Air pump + Exustfan			
Working voltage	AC220V/50HZ or 110V/60HZ or depend on customer			
Operating temperature	0-45C			
Operating humidity	5-95%			
Packing	Standard wooden box			
Guarantee time	1 Year			
Option	Rotary attachment for column materials			
Operation	Video to tell customer how to operate the machine
